THE BOY SCOUTS

The Boy Scout organization has proven by its work that it. deserver support. Not only in the old country, but in Canada they have done much to meet the gratitude and support of the public. Just now the 16th Troop of Scouts is anxious to go shedd, and with that object in view propose to start a monthly magazine in the interest of the movement. We understand that certain of the troops have their headquarters in the old Public Library, but throughout the trough the control of the cont age of doctors and surses, and, he-cause of their training in first aid, some of the scouts were on duty for forty-sight hours without sleep, as the doctors could not spare them. Mr. White hopes to make the isht Troop, which did splendidly throughout war-time in various lines of patriotic work, as efficient as his other troops have been.

FAMILY SHOE STORE

This "old reliable" Shoe store is certainly getting its share of pusiness from all parts of the city. Nearly all of the Shoe stores are holding "so-called" sales. We do not gractice that game—wise

AMERICAN SHOES. Owing to the discount on Canadian money in the States, American Shoes will have to be sold at a big advance over former prices. Fortunately, we have a good stock on hand which will be sold at old prices.

HAGAR SHOES. So long as we have the sale agency in Hamilton for "Hagar Shoes," we could get along alcely without American makes. We consider that "Hagar Shoes" are the only reliable, up-to-date, fine Shoes made in Camada. Hagar Pumps and Oxfords are perfect fitting, and the best value to be had in Shoes!

DAMP-PROOF. During March and April you should wear Damp-Proof Shoes. See our two American makes at \$12.00 and \$12.00. We also have then at \$9.00, \$10.00, \$11.00. Our Cairskits Shoes at \$3.90, \$3.00 and \$10.00 are much below present day prices.

Nukol Will be \$2 a Share After March 1

ONLY A SMALL AMOUNT OF FIRST STOCK ISSUE LEFT, AT \$1.25

"You'll likely see coal from \$15 to \$17 a ton next year," says a railway man who knows what he is talking about. As the coal situation becomes worse each year—NUKOL becomes an absolute daily necessity. The Profits are in necessities. Consider the Toronto Nukol plant: The coal screenings with freight paid on them cost at the factory about \$4 a ton. About \$2 a ton will manufacture them into high class fuel briquettes. From \$1.15 to \$1.25 will deliver a ton of fuel locally by truck. The top capacity of the Toronto plant is 15 tons an hour, 20 hours a day for 300 days, a year. What a pile of fuel six of these plants will turn out—and what a pile of profits! Will NUKOL bake money for you? Just sit down and figure it out for yourself. year," says a railway man who knows what he is

NUKOL Plant No. 1, now operating at Toronto, has proved the success of the NUKOL process and policy. Now comes expansion to cover Ontario with Nukol plants. A modern factory on a 5-acre site with private dock has been secured for the equipment of NUKOL plant No. 2 at Port Stanley, at a greatly reduced cost for freight. This of NUKOL plant No. 2 at Port Stanley, at a greatly reduced cost for freight. This factory will serve the Port Stanley, St. Thomas and London district. Requests for plants have been received from Walkerville, Hamilton, Kitchener, Ottawa, Brant Requests for ford, Sarnia, North Bay, Niagara Falls, Fort William, Sudbury, Sault Ste. Marie, Owen Sound and Parry Sound. Just what points will be selected for the other four plants this year has not yet been decided. Walkerville, Fort William, Hamilton, Niagara this year has not yet been decided. WAIKETVIJE, FOIT WILLIAM, Hamilton, Niagara Falls, Sarnia and Parry Sound offer many manufacturing and shipping advantages. The NUKOL plan calls for 5 more plants in Ontario this year—and up goes the value of stock every time a new plant is added. With one plant operating and another about to be started, \$1.25 a share for stock is a real opportunity—worth your very serious thought—and action to-day. Call or mail the coupon.

this fast growing Industry.

DEVELOPMENTS

Pinancial Underwriters offer this small block of stock remaining from the First Issue, at \$1.25—as a preliminary to the Second Stock Issue. More plants this year will combine to make stock more valuable. In our last week's finuncial an nouncement it was anticipated that the Second Stock Issue would start at \$1.50 per share. In view of the recent big development, arising from the surpassing success of Plant No. 1, the Second Issue will start at \$2.—after March 1st. No more Nukol stock will be offered by the Gompany for less than \$2 a share, after March 1st, 1902. This is absolutely your last chance to get Nukol stock at \$1.25 a share. Act to-day.

According to a wire received from Hughie Shannon this ing, Harry Coulin outpointed Sammy Sandow at Olicinnati evening by a fair margin but the Oanadian Fress report gives dow the decision. It looks like another case of a manager be the newspaperman to the nearest telegraph office.

Don't overlook the Clevelands in your calculations this spring!

Manager Speaker, it is generally conceded, will have a powerful ball club. The Indians were pressing the White Sox hostly when the American League race ended last full and they probably would have captured the pennant if the schedule had been a triffe longer.

Speaker's leadership was the big factor in the Indians's success, yet of the dist's succeed Toll until the half way mark had been passed. The indians are the statement of th

If the earthquake was going to swallow up Bob, it was going ake me at the same time, I decided. I followed my husband into

to take me at the same time, it is the little room to me. When the little room to me was the limp body of Gene Archer. He was bound and gagged. He was asleep or dead. In another corner was Jordan Spence, bound and gagged, but with shining eyes which brightened as he saw us.

Off came the gags, Bob attending to Archer, and I to Jordan

Spence. "Where is Miss Lorimer?" said the latter as soon as he could

"Where is Miss Lorimerr, sand the satter as soon as a conspeak.

"Where is Chryst" I asked at the same moment. Each answered the other with a slow shake of the head. Then we gave our attention to Archer. I believe the menses of the earthquake.

As usual in an emergency, I did the impulsive and the reckless thing. In the secret chamber which Bob and I had just left was water. I rushed down the stairway and through the open panel. I passed close to the body of Hamilton Certeis but I dared not look at the man.

thing. In the secret cases the water. I rushed down the stairway and through the open panel. I passed close to the body of Hamilton Certeis but I dared not look at the man. Level me a long time. He had loved me without reward. I couldn't hate him as I ought to do. But I couldn't help him for that would amount to treachery to others who also loved me. I found a bowl and filled from the fountain. As I turned to leave that strange room I heard Certeis call to me:

"Jeane! Jeane! Are you a dream?"
"No-no! Shoo!" I stammered and then I gathered up my courage and walked toward him. It was impossible to desert a living creature who needed my help. If Bob didn't understand, he you may be not be supported by the side of the divan, while he waved a warning gesture toward the door.

"You are not a vision! It's really you! Go! My darling! Run! An earthquake is coming. I have had a premonition. I always know. Yes, it is true. Some persons have the sense of it—they feel it beforehand. I tell you, I always know. Save yourself, I be, of you say and help you. I am very strong. Lean on me." I said and I went up to him.

At the touch of my hand, he placed his fingers softly on mine. "It would take too long. I move slowly," he said. "Send me help—if you choose—but go, I beg of you." Then he kissed my hand, dropped back on the divan, and fainted for the second time.
